SUMMARY

Analytical investigator with 15 years of experience in regulated financial environments. Consistently applied the same investigative methodology across complex and sensitive cases: identify what is unclear or disputed, reconstruct the underlying reality from available evidence, find the pattern others missed, and produce a documented, defensible finding or recommendation.

Proven record in fraud investigation, evidence assembly, case chronology reconstruction, regulatory compliance, and independent case analysis. Experienced coordinating with law enforcement and regulatory agencies. The environments changed. The method did not.
